

# First Response Rescue

Warner manufactures high quality, durable rescue vehicles at an economical price. Constructed out of long-lasting A60 galvanized steel, lightweight aluminum or heavy-duty stainless steel, each unit is designed and manufactured to meet customer needs and specifications now and in the future. For style, affordability and durability, Warner is the best choice for your department.

# First Response Rescue

Warner specializes in building custom units to meet customers' specific requirements. Let us work with you to design your next apparatus.

## Features and Benefits

- Customers can choose from aluminum roll-up doors or traditional double panel, swing doors to meet individual needs
- Sweep out compartments allow for easier cleaning and on-site use
- Interior body packages designed to meet customer needs
- Polished aluminum treadplate trim provides exceptional look
- Aluminum fuel fill to increase aesthetics and eliminate paint chipping
- Various dome light options provide visibility at night
- Stainless steel polished wheel rings add function and appearance
- Spackle paint increases resilience and improves appearance
- Seamless wheel panel and single-piece header eliminate rust

## Popular Options

- Unistrut shelving provides infinite adjustment to meet each customer's specific needs
- Dri-deck flooring in compartments keeps cargo clean and organized
- Slide-out trays provide organized storage while increasing ease-of-use
- Multiple aluminum trim packages provide custom look to match each department's desires
